

Dear Sirs,

I received a letter that my favorite radio station is in danger of being forced off the air.

I wanted to write and express my desire for 90.7 K-love to be allowed to remain on the air as it is. This station is one of the few I can listen to with my children in the car without worrying about something obscene or offensive coming over it.

We find the music uplifting and encouraging, and I know many people in my community who listen to this station and enjoy it very much.

I think it would be doing my city a disservice to push this station off the air.

Please do what it takes to protect this station's ability to broadcast it's music and message.

Thank you,

Pat Robinson
